

## COMPENG 2SH4 Project – Statement of Contribution

Your Group Number \_\_\_\_\_ Jobs and Musk \_\_\_\_\_

Your Name \_\_\_\_\_ Haixiongtao Nie \_\_\_\_\_

Your Team Member's Name \_\_\_\_\_ Zihan Lin \_\_\_\_\_

**You must complete this statement of contribution without discussing it with your project partner, i.e., individually. Your statement should be concise (at most one-and-a-half page). It has three parts:**

1. Tell us about your own contribution to the development of your COMPENG 2SH4 project. For example, you can tell us about which project iterations (as mentioned in the project manual) and C++ project classes that you worked on and completed. You can provide a concise answer either in paragraph form or through bullet points.

- Iteration2, and B
- Iteration3
- Feature 1
- Feature 2-Snake Body Growth
- Additional iterations
- Debugging

2. Repeat Part 1 above but this time tell us about your project partner's contribution to the development of your COMPENG 2SH4 project.

- Iteration0
- Iteration1A, and B
- Feature 2-Snake Food Consumption
- Feature 3-Snake Death Check
- Debugging

3. Tell us about your experience in your first collaborated software development through this project – what was working and what wasn't. If you are a one-person team, tell us what you think may work better if you had a second collaborator working with you.

My experience in collaborated software development through this project was good. We distributed our work into two parts and each one picked the parts that they are good at. My groupmate was not so good at coding, so I helped him with some parts. It was an good cooperative experience.
